

PVC HIGH PRESSURE SPRAY HOSE

Series(0075~0250)

Applications

- In agricultural, delivery pressure hose of insecticide, fungicide, fertilizer solutions also containing mineral oils for agricultural spraying.
- High pressure water supply and air pipes

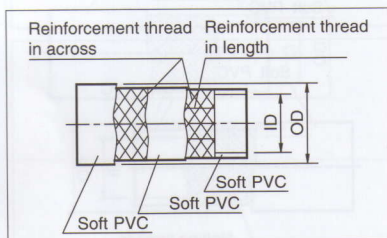

Characteristics

- The products meets the international standard couplings and have gained the Koreans Standard (KS) mark for excellence in quality.
- High pressure resistance.
- Excellent and easy to handle.
- Excellent weather, abrasion, chemical resistance.
- Possible longer length according to order.

Structure

- The hose is constructed according to the specially developed method so as to have a strong resistance against internal and external pressures, it is strongly fused with the soft PVC compound tube and cover.
